Welcome !!!

Hi everybody this is Mister Duncan in England. How are you today ?

Are you OK ? I hope so. Are you happy ? I hope so.

Welcome to the very first episode of my series of English teaching videos.

Before I begin we will take a look at some of the common questions that often arise when talking about learning the English language. And more importantly learning it as a second language..

So the first question must be : “ Why do we need to learn English ?”

Of course one of the reason why we need to be able to speak English nowadays is **because the world is becoming smaller**. Thanks to the internet and our developing global economy more and more people are using English as a common way to communicate with each other. So now it has become unavoidable that companies and large businesses will need to employ people who can speak more than their own native language. That is where **English** comes in. It is now officially considered as an International language.

Of course **learning anything is difficult and English is no exception**. However there are ways to make the situation easier . I have come up with my own list of general rules for learning English,

Do you want to hear them ? Do you want to know what they are ? OK Let's go !

Learning English takes time and patience. It cannot be rushed.

Try to relax and take it easy.

The most important thing you need at the beginning is a good vocabulary. (5a) Without word, you have nothing to work with. You must start with a strong foundation or base. And slowly build on it, day by day !

You must view English as a part of your body. Just as you would, an arm or a leg, **It must become a part of your everyday life.** Daily practice is very important, Do not worry about making mistakes ... in fact the more mistakes you make the more you will learn from them. Just like learning to ride a bike, Sometimes you fall off. So what do you do ? You get back and try again.

Do not look at English as just another subject. Your attitude to English and the way you view it will decide how well you progress. Just as we say in English. **“No pain ... no gain”**.

The two most important words to remember when learning English are practice and confidence, Practice English everyday and be confident. You will find that the more you use English the better your English will become. And the more confident you become then the more you will want to use it. Make it a rule to tell yourself ... I can do it 3x

Bye for now.

Please remember, my lesson are aimed at everyone so hopefully you will find something useful in each one. Maybe you will find some of the words I use very easy. But you will also see some words that maybe new to you.

remember, my lesson are aimed at everyone Even teachers are very welcome to join in, Learning English should be a fun experience. And I hope with the help of my video lessons you will discover just how much fun it can be. I hope you've enjoyed my first lesson. This is Mister Duncan in England saying Thanks for watching and bye-bye for now.

Test

1. Why do we need to learn English ?
2. What is now officially considered as an International language ?
3. Is learning anything including English difficult ?
4. Can we rush in learning English so we don't need to take time and patience?
5. What is the most important thing we need at the beginning ?
5. **Why ?**
6. How can we view English as a part of our body ?
7. Why can't we look at English as just another subject ?
8. What must we say in learning English ?
9. What are the two most important words to remember when learning English ?
